# PC Card Socket Connector Complies with PC card Standard

## IC1 Series

### ■ Features

#### 1. Compliant with PC Card Standards

Polarized entry prevents wrong insertion into a corresponding connector. And sequential contact engagement prevents electrostatic discharge, avoiding possible damage to sensitive board circuits.

#### 2. Suited to Automatic Mounting

Packaged for a board placement with automated equipment.

#### 3. Lead Offset

Available with several board termination levels, to allow use of different height board components.

In relation to the center line of connector, -0.2 mm, +0.3 mm, +0.55 mm, +0.9 mm and terminations on board center are available.
