2mm Pitch Connector Directly Mounted on Board

DF4 Series

■ Features

1. Cost Saving for Header

Thanks to the insertion/extraction socket and the harness product at the both connector edges, one of two headers necessary at both edge sockets can be saved without losing the function to separate individual boards.

2. Miniature and Multiple Contacts

The miniature connector has broad variations in contact number.

Board mounting height : **4mm (Crimping)**

Maximum contact number : **32 contacts (Crimping)**

3. Board Pre-fixed Mechanism

The insertion state to the board is a light crimping, which enables the pre-fixed process to the board.

■ Applications

Note PC, Small business equipment

■Product Specifications

Rating	Current rating (Note 1)	Crimping	Cable Size			Operating Temperature Range	-30 to +85°C(Note 2)	
			AWG 24 : 3A	AWG 26 : 2A	AWG 28 : 1A	Operating Moisture Range	40 to 80%	
	Voltage rating	Crimping	250V AC	Insulation Displacement	100V AC	Storage Temperature Range	-10 to +60°C	Storage Moisture Range

Item	Specification	Condition
1. Insulation Resistance	1000M ohms Min	500V DC
2. Withstanding voltage	No flashover or insulation breakdown.	650V AC/1 minute
3. Crimping Area Resistance	30m ohms Max.	100mA
4. Vibration	No damage, cracks, or parts looseness.	Frequency: 10 to 55 Hz, single amplitude of 0.75 mm, 2 hours in each of the 3 directions.
5. Humidity (Steady state)	Contact resistance: 30m ohms Max Insulation resistance: 500M ohms Min	96 hours at temperature of 40°C and humidity of 90% to 95%
6. Temperature Cycle	Contact resistance: 30m ohms Max Insulation resistance: 1000M ohms Min	Flow: 250°C for 10 seconds
7. Resistance to Soldering heat	No deformation of components affecting performance.	Manual soldering: 300°C for 3 seconds

Note 1: Includes temperature rise caused by current flow.

Note 2: The term "storage" refers to products stored for long period of time prior to mounting and use. Operating Temperature Range and Humidity range covers non conducting condition of installed connectors in storage, shipment or during transportation.

■Material

Product	Part	Material	Finish	Remarks
Crimping Plug	Insulator	Polyamide	Black	UL94V-0
Crimping Contact for Plug	Contact	Brass	Tin plating	————
Insulator Displacement Plug	Insulator	Polyamide	Black	UL94V-0
	Contact	Phosphor copper	Tin plating	————

◆ID Tool

Type	Part Number	Objective Connector	Remarks
DF3-DF4 Table Insulation Displacement Machine	SA701/DF3 903-4507-7	DF3-*S-2R** DF4-*P/PA-2R**	Desk top machine

◆Precautions

1. Recommended Soldering Condition	<p>Flow: 250°C for 3 seconds Manual soldering: 290°C for 2 seconds</p> <p>■ If the cable neighboring the connector is bent and unstraightened, secure a large bending radius because the Jacket will be broken by the solder heat and the contact wire will be exposed. The Jacket in this part will be tore.</p>  <p>■ After the soldering process. If a stress is applied to the cable in the state where the connector and the cable has heat inside, the Jacket hold area will be loosen. Therefore, carry out the post-soldering operation after the connector has returned to the room temperature..</p>
2. Cleaning Condition	<p>Refer to Nylon Connector Use Hand book.</p> <p>Don't use a solvent such as trichloroethylene which invades the cable Jacket. In addition, avoid heat cleaning by a solvent.</p>
3. Connection Condition	<p>Refer to the Nylon Connector Use Hand book.</p>
